Republican A. P. Leased Wire] WASHINGTON, Aug. 18-The American and French governments are agreement in principle as to the future of Poland and Russia, Secretary Colby declared today in a statement interpreting France's rejoinder ot the American note to Italy. His statement accompanied publica-tion of the translation of the French note, which was delivered to the state

department August 14 by Prince de Bearn, the French charge.
France's declaration "of its oppositoin to the dismemberment of Russia," is "most gratifying," Mr. Colby said,

"The response is a notable declaration from every viewpoint and brings to the position taken by the United States a striking emphasis and power-

The secretary referred to French rec ognition of General Wrangel in South Russia as a "divergence" between the two governments on one point, but said the United States was "disposed to regard the declared agreement of France with the principles of the United States as of more signifance than any divergence of policy involved in the specific action of France in this respect."

Events have proved that the present system of government in Russia is founded on the denial of every principle of honor and good faith, and of all the usages and conventions which are the basis of relations between nations and individuals. The responsible heads of this regime have frequently and openly boasted of being ready to sign agreements and contracts with foreign powers without having the least intention of observing them. They claim that no contract or agreement con-

cluded with non-bolshevist govern-ments can bind them morally. Soviet Word Not Binding "After having proclaimed this doctrine, they have applied. They have declared they would foment revolutionary movements in other countries, in order there to establish bolshevist regimes. Furthermore, they recognize that they are themselves subject to the control of a political faction havinternational ramifications and they have boasted that their promises of non-intervention in other countries would in no case be binding on the agents of this organization. Most spectacular of the demonstrations was the picketing of the House, which began in January, 1917, and lasted until November, 1917.
